---

## PROFILE

Fresh graduate specializing in backend development using C# and ASP.NET Core. Experienced in building RESTful APIs, designing databases, and applying OOP and SOLID principles. Completed several practical projects demonstrating clean code practices, problem-solving skills, and API development capabilities. Seeking an opportunity as a Backend Developer to contribute to real-world solutions and enhance my professional skills.

---

## SKILLS

**Backend & Frameworks:**
- C#
- ASP.NET Core,
- MVC
- Web API
- Entity Framework Core
- LINQ

**Database**
- MS SQL Server

**Programming Language**
- C++ , C#

**Architectural & Principles**
- Object -Oriented Programming (OOP)
- Network Fundamentals
- SOLID Principles
- Clean Architecture
- Design Patterns

**DevOps &Tools**
- Git &GitHub
- Postman &Swagger

---

## PROJECTS

**Hospital Appointment Booking System**                    05/2025 – Present
ASP.NET Core Web API – C# – EF Core – SQL Server

Developed a complete hospital appointment booking system that allows patients to register, view available doctors, and schedule appointments. The system includes doctor management, availability scheduling, and full CRUD operations. Built using ASP.NET Core Web API, Entity Framework Core, and SQL Server with proper validations and clean, maintainable architecture.

**E-Commerce Web Application**                             10/2025 – Present
ASP.NET Core MVC – C# – EF Core – SQL Server

Developed a simple e-commerce web application using ASP.NET Core MVC, featuring product listing, product details, user registration and login, shopping cart management, and order checkout. Implemented Entity Framework Core for database access with full CRUD operations. Designed a user-friendly interface using Razor Views and followed MVC architectural best practices to ensure clean and maintainable code.

---

## EDUCATION

**Bachelor of Information Technology**                     09/2021 – 08/2025
Hadhramout University                                                Mukall

Completed a Bachelor's degree in Information Technology, focusing on software development, databases, networking, and system analysis. Gained hands-on experience through academic projects and practical assignments, developing strong technical skills and a solid understanding of modern IT concepts.
